

Your hospital discharge: going home

This leaflet explains why you are being discharged from hospital and what you might expect after your discharge.

Why am I being discharged from hospital?

You are being discharged from hospital as your health team have agreed that you are now able to return home.

Why can't I stay in hospital?

The health system is busy helping patients affected by coronavirus (COVID-19). This is a new illness that can affect the lungs and airways and some people who contract the illness will need to be admitted to hospital. It is important that our hospitals are ready to look after those people who need this hospital care.

Because of this, you will not have a choice over your discharge. You will not be able to remain in hospital if you choose not to accept the care that is being offered to you.

What can I expect?

It is our priority to ensure that you are discharged safely from hospital and to the most appropriate available place.

Your health team will discuss discharge and transport arrangements with you (and a family member, friend or carer if you wish). If you require care and support when you get home, this will be arranged.

Any care provided will be free of charge for a period of time to support your recovery. After this time you may be required to contribute to the cost of your care.

Who can I contact?

After you have been discharged, if you have any concerns or need to speak to someone about your care, you can contact the discharge team on: **01223 586951**, alternatively call switchboard on: **01223 245151** and ask for the relevant ward.

Your hospital discharge: another place of care

This leaflet explains why you are being discharged from hospital and what you might expect after your discharge.

Why am I being discharged from hospital?

You are being discharged as your health team have agreed that you are now able to continue your recovery in another care setting, outside of hospital.

Why can't I stay in hospital?

The health system is busy helping patients affected by coronavirus (COVID-19). This is a new illness that can affect the lungs and airways and some people who contract the illness will need to be admitted to hospital. It is important that our hospitals are ready to look after those people who need this hospital care. Because of this, you will not have a choice over your discharge. You will not be able to remain in hospital if you choose not to accept the care that is being offered to you.

It is our priority to ensure that you are discharged safely from hospital and to the most appropriate available place.

What can I expect?

Your discharge and transport arrangements will be discussed with you (and a family member or carer if you wish) and you will be discharged with the care and support you need to a bed in the community. The care provided will be free of charge for a period of time to support your recovery. After this time you may be required to contribute to the cost of your care.

It is possible that you may be moved more than once after your discharge. This is because we will be trying to find the best place for your long term care. Your health team are here to answer any questions you might have.
